To: Whom it may concern,

Subject: Reference Price for anti- Covid-19 Virus Staff

The whole world is embracing the storm created by COVID-19 Virus. As the nation which has been first dragged into the eye of the storm and has fought a way out of it, China deeply appreciated the assistance received from countries worldwide in the last two months. With its strong manufacturing capacity and capability, we hereby represent Chinese manufacturers to offer the attached medical products that can be used in this war against COVID-19.

In the last two months, China has been through one of the most painful periods in modern Chinese history, when we fought the COVID-19 Virus alone in the long cold winter. However, what we had been through also teach us that although modern technology and advanced medical equipment/products can save life, but it's the spirit of fortitude and the power of unity that make the real difference in the darkest time of the war. This is a war without bystanders, what we really want to offer to you is the love and support from the bottom of our hearts.

We hope our love and support can bring you the courage and strength to continue this long and painful fight.

We hope our love and support can make you feel the warmth when you have to face the cold truth and challenges ahead.

“You'll never walk alone. At the end of the storm, there is a golden sky.”
